

Dell NetWorker Deploy 2023

Certification Description

[Proven Professional Website](#)

Engage with your peers in our [Proven Professional Community](#)

Certification Overview

This certification is used to validate an individual's knowledge of NetWorker and common backup and recovery concepts necessary to successfully implement Dell NetWorker solutions. The learning path focuses on NetWorker Concepts, NetWorker Implementation, NetWorker Administration, and NetWorker Administration- Cloud Enablement. Topics include use cases, system architecture, components, monitoring, maintenance, capacity management, backup, restore, implementation, maintenance, and best practices.

Certification Requirements

To complete the requirements for this certification a candidate must:

1. Have a sufficient knowledgebase/skill set through hands-on product experience and/or by consuming the Recommended Training.
2. Pass the [Dell NetWorker 2023 Exam](#)

Note: These details reflect certification requirements as of February 3, 2024.

The Proven Professional Program periodically updates certification requirements.

*Please check the [Proven Professional CertTracker](#) website regularly for the latest information and for other options to meet the Associate level requirement.

Dell Technologies Partners: Achieving a certification validates capability; however, it does not imply authorization to deliver services. Services Delivery Competencies provide partners with the ability to deliver services under their own brand or co-deliver with Dell Technologies. Tiered partners are eligible to obtain services delivery competencies upon completing the specific requirements outlined in the [enablement matrix](#). Only partners that have met these requirements should be delivering their own services in lieu of Dell Technologies Services.

Dell NetWorker Deploy 2023 Exam

Exam Description

Exam Overview

This exam focuses on ensuring individuals are knowledgeable in enterprise backup concepts and terminology and can successfully implement solutions designs with Dell NetWorker backup solutions. This exam covers NetWorker Concepts, NetWorker Implementation, NetWorker Administration, and NetWorker Administration_- Cloud Enablement. This exam also covers use cases, system architecture, components, monitoring, maintenance, capacity management, backup, restore, implementation, maintenance, and best practices.

Dell Technologies provides free practice tests to assess your knowledge in preparation for the exam. Practice tests allow you to become familiar with the topics and question types you will find on the proctored exam. Your results on a practice test offer one indication of how prepared you are for the proctored exam and can highlight topics on which you need to study and train further. A passing score on the practice test does not guarantee a passing score on the certification exam.

Products

Products likely to be referred to on this exam include but are not limited to:

- Dell NetWorker software
- PowerProtect DD series appliances
- Dell NetWorker modules (e.g. NMM, NMDA)
- Dell Cloud Tier
- CloudBoost

Part 1:

Duration

90 Minutes

(~54 Questions)

Pass Score

63%

Part 2:

Duration

30 Minutes

(~6 Simulations)

Pass Score

66%

A passing score is required on **both** parts of this exam.

Exam Topics

Topics likely to be covered on this exam include:

Dell NetWorker Overview (10%)

- Describe a NetWorker solution and its advantages
- Identify and describe the NetWorker software components and their roles, data protection functions, and terminology
- Explain how to use of NetWorker control data and administrative interfaces

Dell NetWorker Daemons (5%)

- Identify the NetWorker daemon responsible for a specific NetWorker use case

Dell NetWorker Installation and Configuration (40%)

- Describe the NetWorker architecture and components, including processes and backup data flow

- Install and license NetWorker, NetWorker Management Console, and NWUI
- Configure NetWorker backups; including client, protection group, policy and directive resources, and client save set and backup command attributes
- Distinguish and choose between NetWorker backup options, including synthetic full backup, block-based backup, and snapshot management
- Configure and manage NetWorker backup devices, including device types, media pools, client direct backups, cloning, and staging

Dell NetWorker Administration and Management (27%)

- Demonstrate knowledge and application of NetWorker security features, including NetWorker authentication (AuthC), NetWorker user groups, and logs
- Configure and manage the NetWorker server and NetWorker Management Console; for example: notifications, reports, parallelism, and multi-tenancy
- Perform NetWorker recoveries: for example: directed, browsable, and save set
- Demonstrate how NetWorker databases are managed, backed up, and restored; for example: media and resources databases and client file indexes

Dell NetWorker Cloud Enablement (10%)

- Describe the NetWorker features and capabilities that support backup to and in the Cloud
- Configure NetWorker with CloudBoost, Cloud Tier, and NetWorker Virtual Edition
- Manage NetWorker with CloudBoost, Cloud Tier, and NetWorker Virtual Edition

Dell NetWorker and VMware Integration (8%)

- Configure and deploy NetWorker vProxy with vCenter
- Configure NetWorker VMware backups and recoveries

The percentages after each topic above reflects the approximate distribution of the total question set across the exam.

Recommended Training

The following curriculum is recommended for candidates preparing to take this exam.

Please choose one of the options below.

Option 1: Please complete the following courses

Course Title	Course Number	Mode	Available
Dell NetWorker Concepts	MR-1WP-NWFUN	On Demand Course	2/20/2022
Dell NetWorker Implementation	ES101DPS01760	On Demand Course	7/19/2022
Dell NetWorker Implementation	ES101DPS01761	On Demand Lab	7/28/2022
Dell NetWorker Administration	ES102DPS01486	On Demand Course	8/22/2022

Dell NetWorker Administration	ES102DPS01705	On Demand Lab	7/29/2022
Dell NetWorker Administration – Cloud Enablement	MR-1WP-NWCLD	On Demand Course	10/17/2021
Dell NetWorker Administration – Cloud Enablement	ES101DPS01728	On Demand Lab	10/21/2021

Option 2: Please complete the following courses

Course Title	Course Number	Mode	Available
Dell NetWorker Implementation and Administration	MR-1LP-NWIM	Classroom/ Virtual Classroom	8/10/2022
Dell NetWorker Administration – Cloud Enablement	MR-1WP-NWCLD	On Demand Course	10/17/2021
Dell NetWorker Administration – Cloud Enablement	ES101DPS01728	On Demand Lab	10/20/2021
