Certification Overview

This certification covers PowerMax family storage array maintenance. Required product knowledge includes the ability to identify the main system components and perform replacements on Field Replaceable Units (FRUs).

Certification Requirements

To successfully complete this certification, a candidate must:

1. Have a sufficient knowledge base/skill set through hands-on product experience and/or by consuming the Recommended Training.
2. Pass the [Dell PowerMax Maintenance 2023 Exam](#).

Note: These details reflect certification requirements as of September 22, 2023.

The Proven Professional Program periodically updates certifications to reflect technical currency and relevance. Please check the Proven Professional website regularly for the latest information.

Dell Technologies Partners: Achieving a certification validates capability; however, it does not imply authorization to deliver services. Services Competencies provide partners with the ability to deliver services under their own brand or co-deliver with Dell Technologies. Tiered partners are eligible to obtain Services Competencies upon completing the specific requirements outlined in the [Services Competencies Matrix](#). Only partners that have met these requirements should be delivering their own services in lieu of Dell Technologies Services.

- Discuss Field Replaceable Units (FRUs) replacement and related procedures

The percentages after each topic above reflects the approximate distribution of the total question set across the exam.

Exam Preparation

Dell Technologies provides free practice tests to assess your knowledge in preparation for the exam. Practice tests allow you to become familiar with the topics and question types you will find on the proctored exam. Your results on a practice test offer one indication of how prepared you are for the proctored exam and can highlight topics on which you need to study and train further. A passing score on the practice test does not guarantee a passing score on the certification exam.

Recommended Training

The following curriculum is recommended for candidates preparing to take this exam.

Please complete all of the following courses:

Course Title	Course Number	Modality	Available
PowerMax Concepts and Features	ES131STG00363	On Demand	5/5/2023
PowerMax 10 Concepts and Features	ESSTGD04299	On Demand	8/1/2023
PowerMax Hardware Concepts	ES532STG01131	On Demand	11/22/2022
PowerMax 10 Hardware Concepts	ESSTGD04457	On Demand	8/1/2023
PowerMax and VMAX All Flash 250/950 Maintenance	ESSTGD04922	On Demand	8/1/2023

Please complete one of the following courses:

Course Title	Course Number	Modality	Available
PowerMaxOS 10 Maintenance	ESSTGD04438	On Demand	8/1/2023
PowerMax 10 Maintenance	ESSTGS04600	Classroom/ Virtual Classroom	8/1/2023
