Overview
This exam is a qualifying exam for the **Specialist – Systems Administrator, OpenManage Enterprise (DCS-SA)** track.

This exam focuses on Installing, deploying, configuring, and maintaining the Dell EMC OpenManage Enterprise software.

Dell Technologies provides free practice tests to assess your knowledge in preparation for the exam. Practice tests allow you to become familiar with the topics and question types you will find on the proctored exam. Your results on a practice test offer one indication of how prepared you are for the proctored exam and can highlight topics on which you need to study and train further. A passing score on the practice test does not guarantee a passing score on the certification exam.

Products
Products likely to be referred to on this exam include but are not limited to:

- OpenManage Enterprise 3.7

Exam Topics
Topics likely to be covered on this exam include:

OM Enterprise Overview (5%)
- Describe the primary features and functions of OM Enterprise

Deployment and Configuration (15%)
