

EDUCATION SOLUTIONS THAT TRANSFORM YOUR WORKFORCE

Technology is reshaping the workforce at a faster pace than was ever thought possible. Organizations need to find new ways to drive efficiencies, cut costs and streamline processes. Workforces need to access information on any device, at any time. This isn't just the new normal. **It's the new mandatory.**

To adapt, organizations must truly transform – and Dell Technologies can show you the way. It's not enough to provide the latest devices, tools or applications. Organizations need an educated and empowered workforce with next-generation skills to bring that technology to life. **Dell Technologies is ready to help you transform your business and shape your future.**

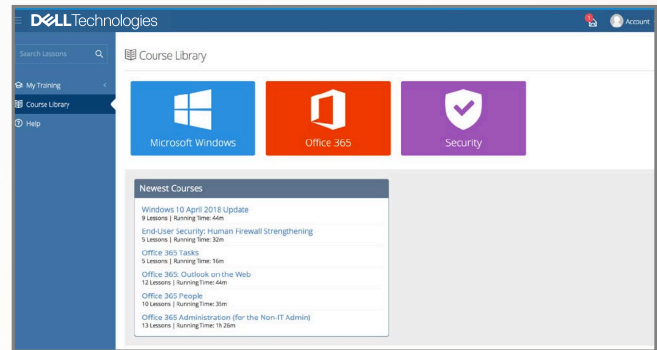

ENSURE WORKFORCE TRANSFORMATION SUCCESS

Dell Technologies Education Services provides a low-cost, easy-to-scale and ready-to-run solution. Together, we can ensure your staff receives the training and education they need to be effective in today's work environment, as well as help you realize the greatest return on your technology investments. Through the Dell Technologies Learning Portal, you get easy access to the latest Windows 10, Office 365 and cybersecurity end-user training.

TRAIN ANYTIME AND ANYWHERE

- **Rapid Deployment** – Deliver new knowledge quickly and refresh existing knowledge instantly with ready-to-go, task-based, to-the-point video lessons.
- **Mobile Friendly** – Access anytime, anywhere with responsive designs for any device.
- **Amazing Instructors** – Learn from the best with lessons created by Microsoft Most Valuable Professionals and industry experts.
- **Fresh Content** – Get updates automatically with courses that are reviewed regularly for new and replacement lessons.
- **O365 Tutorials** – Improve adoption of O365 including Teams, Delve, Sway and other new products within O365 with our short, intuitive training videos.
- **Windows 10 Tutorials** – Learn how to get around, use the task bar, use access control, action center, connect to Wi-Fi and more.
- **Cybersecurity Training** – Access end-user cybersecurity training on security awareness, human firewall strengthening, social engineering, identity theft and more.

Course Library – Empowering end-users with an inviting, friendly and intuitive design. Training is easy to find and easier to consume.

Administrator Dashboard – Enhanced reporting, simplified controls and powerful features make the admin functionality a game-changer. Visualize your team's activity through Return-on-Investment (ROI), Skill Increase and Time Savings.
